Introduction

This Statement of Intent (SOI) follows on from last year's post COVID-19 document, produced as we emerged from lock down and planned for the new future that those events had prompted for us. It's timely to note that we have just had another skirmish with the new plague, successfully navigated (by most measures) but nevertheless still rightfully in our consciousness.

But that is no cause for alarm or 'pulling back.' Far from it, our team demonstrated a willingness to think outside the square and maximise our gains during COVID-19, post COVID-19 and now COVID-19 2.0.

Last year's SOI was heavily influenced and guided by a workshop that was held with PNCC councillors and officials and much of the result of that deep communication remains reflected in our thinking; including the participation in the sesquicentennial aligned with PNCC's planning.

Looking ahead though, our ten year business plan is nearing release and as we have broadened and lengthened our horizons, we have taken the opportunity to take some things as given (e.g. the limitations of our buildings) and just as our team thought outside the square during COVID-19 1.0, we have looked to innovations and projects that can move us forward acknowledging but not being totally constrained by them.

A significant harbinger of this approach is the enhanced partnership with Rangitāne that has resulted in a commercial agreement being entered into with PNCC's blessing that will move our collaboration forward into a new and energising phase. This new model of partnership is a first we believe for museums in New Zealand and while it will require some hard work and strong communication, we are excited by the possibilities.

The TM team has worked hard to develop this SOI not the least in the development of programmes and a budget that allows us to maintain good stewardship and move forward – we thank them for their efforts. As always, we thank our partners, our principal funder PNCC, Iwi, our societies and all the organisations and communities that support and work with us.

John Fowke
Chair, Te Manawa Museums Trust
25 February 2021

Purpose of the Statement of Intent

This Statement of Intent is presented by Te Manawa Museums Trust in accordance with the requirements of Section 64(1) of the Local Government Act 2002.

In accordance with the Local Government Act 2002, this annual Statement of Intent publicly states the activities and intention of Te Manawa Museums Trust for the next three years, and the objectives to which those activities will contribute.

This final Statement of Intent has taken shareholder comments into consideration and include performance measures and targets as the basis of organisational accountability.

About Te Manawa Museums Trust

Purpose

Amplifying possibilities

Vision

‘Working Beyond Boundaries’

Built on a foundation of manaakitanga (inclusion, kindness, safety, hospitality)

Mission

We will partner with communities, thought leaders, change makers and supporters, to inspire, broker and deepen connections among them, and with our world’s tangible and intangible treasures, so that we can create and deliver relevant, engaging programmes and experiences with and for our communities.

Values

To co-create an energetic, surprising museum with multiple communities we embody these values:

- **Kaitiakitanga**
We are passionate about the treasures we care for on behalf of the community, and their power to inform and transform us, now and into the future.
- **Courageous and experimental**
We are committed to making a real and positive difference, thinking clearly and openly about how Te Manawa can best evolve to achieve this – and when and how we need to think outside the box, and be brave, daring and fearless in our thinking and actions.
- **Open and inclusive**
The concept of *TĀTOU / WE* together is central to everything we do – acknowledging the mana of each person and the collective mana of all.
Open communication – the ability to listen actively, with respect, and to frame relevant questions that will unlock meaning, insights and value – underpins our culture.
- **Smart and strategic**
Our responsibility to our communities means we are strategic about where we are going, and smart, rigorous and pragmatic about how we will get there.
Our decisions are based on prioritising and growing our resources and monitoring outcomes, with a focus on building our ability to impact and achieve sustainable success.
- **Generous and entrepreneurial**
We believe our communities are part of a world full of the possibilities, talent, solutions and insight our future relies on. To realise this potential, we are generous in our approach - our ability to have fun, enjoy life and value each other underpins the spirit of entrepreneurship that drives us forward.

Objectives of the Te Manawa Museums Trust deed

- To provide governance of an organisation which is a regional museum complex, advancing interest in art, heritage and science (including interactive science)
- To provide study, educational and enjoyment opportunities through acquiring, conserving, researching, communicating and exhibiting material evidence of people and their environment
- To develop, promote, enhance and maintain collections to make them relevant to the peoples of the Manawatū and New Zealand
- To recognise and act in accordance with the principles of the Treaty of Waitangi and to involve and give special attention to the history of the Tangata Whenua in the Region
- To ensure that the facility functions as a valued professional education resource and community asset for the citizens of Palmerston North and the Manawatū Region
- To encourage and support the kindred Societies in accordance with the objects of this Trust Deed
- To recognise the organisation's location in the Manawatū and to be aware of the Regional focus

Statement of the Board's approach to governance

Te Manawa Museums Trust Board is established and governed in accordance with the Te Manawa Trust Deed; available on request from the Executive Assistant of Te Manawa.

The Board of up to seven trustees, is responsible for the strategic direction and control of Te Manawa's activities.

The Board guides and monitors the business and affairs of Te Manawa, in accordance with the Charitable Trusts Act 1957, the Local Government Act 2002, the Trust Deed and this Statement of Intent.

The Board's approach to governance is to adopt "good practice" with respect to:

- the operation and performance of the Board
- managing the relationship with the Chief Executive
- being accountable to the community and regularly reporting to the Arts, Culture and Heritage Committee of Palmerston North City Council
- enhancing Te Manawa's environmental sustainability.

The Chief Executive is responsible for the day-to-day operations of Te Manawa, engaging and oversight of staff and reporting to the trustees on performance against Te Manawa's performance objectives.

The Board encourages engagement on our strategic direction by stakeholders through three main avenues: the development and presentation of this Statement of Intent, a public Annual General Meeting held each year, and through presentations at Council's quarterly Arts, Culture and Heritage to report and outline new initiatives.

Contribution to ‘Small city benefits, big city ambition’

Palmerston North City Council’s vision for the city is *Small city benefits, big city ambition*.

Council has identified five strategic goals for achieving this vision: Goal 1: An innovative and growing city; Goal 2: A creative and exciting city; Goal 3: A connected and safe community; Goal 4: An eco-city; and Goal 5: A driven and enabling Council.

Te Manawa contributes to all goals, but primarily to these priorities under Goal 2:

- Celebrate the city’s history and diversity, and build on the strength of being a city of many cultures and languages; and
- Develop the city into an arts powerhouse with a national reputation for creativity and the arts.

Te Manawa received a Statement of Expectation stating Council’s objectives relating to Te Manawa. The Board has worked through the Statement of Expectation and has responded to this throughout this Statement of Intent.

Strategic objectives

We have identified interrelated areas of focus for the next three years to achieve our vision of a museum working beyond boundaries.

- **Objective 1: A collaborative and future-focussed organisation**

Te Manawa will connect to and amplify what's already happening in the community to make a bigger impact. Maintaining and enhancing our strategic relationships is key our success.

We will build Te Manawa's environmental and financial sustainability, ensuring it is well-placed to challenge boundaries and respond proactively to change. Te Manawa seeks to reduce carbon emissions. We will work strategically to accelerate revenue generation and embed a business development mindset within Te Manawa.

We will build our reputation as a creative and vibrant organisation, encouraging experimentation. Te Manawa will act as a testing ground for prototyping ideas.

- **Objective 2: Innovative experiences that attract visitors**

Te Manawa's multi-layered experiences champion the uniqueness of our region. We will focus on developing and hosting vibrant exhibitions, spanning and interconnecting art, heritage and science, that attract visitors, contributing to the city's liveability and sense of place. We will carry out creative marketing to build visitation, third-party investment, and Te Manawa's profile.

Through our exhibitions, both conventional and challenging, Te Manawa builds a national reputation. Digital engagement will help attract physical visitors but also provide for our collections and activities to be enjoyed and interacted with by those in our community who cannot visit our facilities.

By caring for its collections, Te Manawa provides access to the region's diverse cultural heritage. Existing collections are brought to life so residents and visitors can engage with the history of the Manawatū and New Zealand.

- **Objective 3: Enhanced learning and engagement**

Te Manawa, as a gathering place, builds tolerance and connections among Palmerston North's diverse cultures – one community, many cultures. We will ensure that Te Manawa enhances creativity, gives visibility to diverse viewpoints, and supports an inclusive community. We will provide opportunities to incubate ideas through collaboration and experimentation, leveraging opportunities to co-create with local communities.

Te Manawa opens doors for different conversations and engages people in learning experiences that are relevant and meaningful to them. Te Manawa, through its links to education, research institutes and local technology industries, develops science and technology-focussed exhibitions of local and national interest.

Our relationship with Rangitāne o Manawatū, as mana whenua, will evolve in line with their post-settlement aspirations. Te Manawa, in partnership with Rangitāne, protects its taonga, tells its stories and moves forward under the principles of Te Tiriti o Waitangi.

What we will do

Objective 1: A collaborative and future-focussed organisation

To achieve this objective, we will:

- Continue to maintain strong relationships with Rangitāne at governance levels and through activity-based approaches
- Complete the Strategic Relationship Strategy (2021/22).
- Implement a partner-based exhibition (by end of 2022/23).
- Develop short and long-term fundraising projects to realise the goal of sustainable external funding for programmes and exhibitions (2021-24).
- Finalise and make public a ten year business plan (to be reviewed annually) which provides a clear focus of long term development (2021-24).
- Trial and review one environmentally focussed project by end of 22/23.
- Promote and promulgate thought leadership across the national museum sector (2021-24).
- Initiate a project to scope, develop and increase revenue-generating product and services.

Objective 2: Innovative experiences that attract and engage visitors

To achieve this objective, we will:

- Develop a Visitor Experience Plan to act on the findings of the visitor market research.
- Care for, develop, and add to Te Manawa's collections.
- Maintain a vibrant and balanced programme of exhibitions to engage audiences and contribute to building visitation (digital and physical), third-party investment and Te Manawa's profile locally and nationally.
- Continue with the established plan to exhibit the art collection physically and digitally within three years (by end of 2023/24).
- Implement and evaluate success of Exhibitions Strategy (by end of 2021/22).
- Develop a Digital Strategy to support development of online experiences that attract increasing interest. (by end of 2021/22). Implement and evaluate success by end of 22/23.
- Develop two new digital creative projects (by end of 2022/23), and two more by end of 2023/24.
- Develop economic impact reporting for major exhibitions hosted by Te Manawa (by end of 2021/22).

Objective 3: Enhanced learning and engagement

To achieve this objective, we will:

- Develop a strategic approach to the implementation of international community engagement mentoring programme OF|BY|FOR ALL through the development of stakeholder and visitor experience strategies (21/23)
- Increase the impact of learning programmes and activities in formal and informal environments through Te Rangahau Curiosity Centre (2021-24).
- Implement a communications and marketing plan for learning activities (2021-24).
- Evaluate success of two creative projects (by end of 2021/22). Deliver two more projects (by end of 2022/23).
- Support implementation of phase 1 of Te Rangimārie project, a dual venue cultural tourism project undertaken by Te Rangimārie Marae Trustees (by end of 2021/22). Phase 1 includes training for Front of House staff to confidently engage with visitors, and co-creation of activities linked to Te Rangī Whenua.

Performance measures

To track progress towards its objectives, Te Manawa will report on the following measures.

Objective	Performance measure	Actual	Target				
		2019/20 (C-19 affected)	2020/21	2021/22	2022/23	2023/24	
1. A collaborative and future-focused organisation	Strength of relationship with strategic partners	<i>Not measured</i>	Relationship strategy is under development	Strategic relationships defined and identified as part of the Strategic Relationship Strategy Relationship principles developed in conjunction with strategic relationship partners	Qualitative and quantitative parameters identified in conjunction with strategic relationship partners	9 of 10	
	Revenue secured from sources outside PNCC	337,060	\$574,154	\$654,745	\$687,341	\$666,845	
	Develop measures towards reduction of carbon emissions	Not measured	Not measured	Measure baseline carbon emissions	Develop measures to lower carbon emissions	Reduce carbon production by 10 %	
2. Innovative experiences that attract visitors	Likelihood of visitors to positively endorse Te Manawa to others	<i>Not measured</i>	Under development	Highly likely	Highly likely	Highly likely	

	In-person visits to Te Manawa	100,599	150,000	150,000	150,000	150,000
	Visits to Te Manawa experiences off-site	16,303	50,000	25,000	50,000	50,000
3. Enhanced learning and engagement	Visitor satisfaction (good/very good/excellent)	99%	> 96%	> 96%	> 96%	>96%
	Participation in learning programmes	21,316	30,000	24,000	24,000	24,000
	In-person visits to Rangimārie activities	<i>Not measured</i>	Under development	5,000	10,000	10,000

How we operate

We aim to provide a hub for significantly growing the city's levels of learning and engagement, social cohesion and wellbeing, civic pride and vibrancy, and national reputation. We work to:

- open doors for different conversations;
- enhance through creativity;
- build a profile of and champion the uniqueness of our region;
- connect people with each other and unlock the riches of our treasures and stories;
- incubate ideas through collaboration and experimentation;
- amplify possibilities and potential, with and for our communities;
- challenge boundaries and respond proactively to change;
- develop a well-informed community armed with knowledge and understanding.

We are committed to staff development and provide training, performance reviews and development plans.

Our staff are qualified and experienced, and we adhere to rigorous and inclusive processes to ensure the best experience of, by and for the public.

Working together

Quarterly Report

Te Manawa Museums Trust will present at Palmerston North City Council's quarterly Arts, Culture and Heritage Committee meeting to report on progress against the SOI and outline new initiatives (unless the half-yearly or annual report is to be presented at the same meeting).

Half-Yearly Report

By the end of February each year, Te Manawa Museums Trust will provide the Council with a half-yearly report complying with s 66 of the Local Government Act 2002. The report will include the following information:

- Chief Executive's commentary on operations for the relevant six-month period.
- Comparison of Te Manawa Museums Trust's performance with the objectives, planned activities and performance targets set out in the SOI, with an explanation of any material variances.
- Un-audited half-yearly financial statements incorporating a statement of financial performance, statement of financial position, statement of changes in equity and statement of cashflows.

Annual Report

By 30 September each year, Te Manawa Museums Trust will provide the Council with an annual report complying with s 67–69 of the Local Government Act 2002. Financial statements and audit clearance will be provided in early August to ensure timely availability of Council’s annual report.

The annual report will contain the information necessary to enable an informed assessment of the operations of Te Manawa Museums Trust, and will include the following information:

- Chief Executive’s commentary on operations for the relevant year.
- Comparison of Te Manawa Museums Trust’s performance to the objectives, planned activities and performance targets set out in the SOI, with an explanation of any material variances.
- Financial statements incorporating a statement of financial performance, statement of financial position, statement of changes in equity, statement of cashflows, statement of accounting policies and notes to the accounts.
- Auditor’s report on the financial statements and the performance targets.
- Any other information that the Trustees consider appropriate.

Signature

This Statement of Intent was approved by the Te Manawa Museums Trust Board on 2 June 2021

BUDGET FOR THE YEARS ENDED 30 JUNE 2022, 2023 AND 2024

TE MANAWA MUSEUMS TRUST

Contents

Budget Assumptions and Comments	17
Prospective Statement of Comprehensive Revenue and Expenses	20
Prospective Statement of Financial Position	21
Prospective Statement of Cash Flows	22
Statement of Accounting Policies	23

Budget Assumptions and Comments:

Revenue

1. Palmerston North City Council (PNCC) Funding:

PNCC Operating Grant

2021/22: \$3,264,227 (2020/21 plus 1.0%)

2022/23: \$3,296,869 (2021/22 plus 1.0%)

2023/24: \$3,329,838 (2022/23 plus 1.0%)

2. Interest Revenue:

Interest Income has been based on average bank balances remaining between \$732k and \$900k (the approximate required level to preserve Te Manawa tagged reserves) with weighted average bank interest rates forecast at 0.6%.

3. Other Operating Revenue:

Other Operating Revenue is expected to increase from the 2020/21 budget, with increased targets for fundraising and sponsorship.

4. Net Collection Movements

The forecast level of donated collection assets is maintained level from prior years. (\$15,000).

The prospective financial statements do not provide for a forecast net movement in the market value of collections, as data are not readily available for assumptions regarding the future market value of collections assets. Revaluation of collection assets is a non-cash item. The most recent revaluation of the Art Collection took place during the final quarter of the 2020/21 financial year, and the next Heritage Collection revaluation is to take place during the 2023/2024 financial year. The revaluation conducted during the 2019/20 year resulted in a reduction in value of heritage items of \$1,273,084

Expenditure

5. Payroll:

The Payroll budget for all years incorporates requirements of the remuneration system adopted by Te Manawa.

6. Operating Expenditure:

Operating costs have been budgeted for the next three years based on current contractual commitments, as well as anticipated maintenance costs (i.e. cleaning, repairs and maintenance, security and administrative costs).

7. Occupancy Costs:

Te Manawa has received notice of some suppliers' intention to increase costs. An inflation adjustment of 1.1% has been applied across most expense categories.

8. PNCC Leases and Service Level Agreements:

It has been assumed that there will be no increase in charges from PNCC in relation to service level agreements - IT, vehicles and phones.

9. Depreciation:

The forecast depreciation for the next financial years is based on the planned plant and equipment additions and the upgrade of the semi-permanent exhibition (Te Awa).

10. Operating Surplus/(Deficit) after Collection Movements:

A net surplus has been budgeted for each of the three years covered by the financial statements 2021/22 (\$7.1k) 2022/23 (\$6.7k) and 2023/24(\$9.3k)

Prudent management of operating expenditure will be required to achieve the budgeted results. Revenue generation opportunities will be sought to ensure that operating cash surpluses are produced going forward.

STATEMENT OF FINANCIAL POSITION:

11. Cash & Short-Term deposits:

Cash & Cash Equivalents (including term deposits with a maturity of up to 3 months) are budgeted to remain relatively consistent at between \$1,064k and \$1,240k. This is enough to meet the Trust's current budgeted obligations and commitments.

12. STATEMENT OF CASHFLOWS:

Forecast net cash flows from operating activities are enough to cover the planned capital expenditure for the three financial years.

13. STATEMENT OF CASH BALANCES & RESERVES:

Careful managing of resources will be required to maintain positive untagged reserves over next years, in order to both meet our operational costs and gradually increase our semi-permanent and touring exhibition capabilities. There is also an increased reliance on third party revenue to meet the forecast level of operating costs and allow for the strategic reserves to be built up.

The tables below indicate the way Te Manawa intends to gradually build up its strategic reserves within the constraint of maintaining positive untagged reserves.

**Te Manawa Museums Trust
Endowment Fund Forecast**

Endowment Fund	Balance 1/7/20	Actual at 30/06/20	Budget transfers in/(out)	2020/21 Budget	Budget transfers in/(out)	Budget transfers in/(out)	2021/22 Budget

The accompanying notes and accounting policies form part of the prospective financial statements

Notes to the Prospective Financial Statements

Statement of Accounting Policies

REPORTING ENTITY

Te Manawa Museums Trust (the Trust) is a charitable trust incorporated in New Zealand under the Charitable Trusts Act 1957 and is domiciled in New Zealand. The Trust is controlled by Palmerston North City Council and is a Council Controlled Organisation as defined under section 6 of the Local Government Act 2002, by virtue of the Council's right to appoint more than 50% of the Board of Trustees.

The Trust was incorporated on 20 August 1999, from that date, the Trust assumed responsibility for art works and heritage assets transferred to its care but held on behalf of others. From 1 July 2000 the Trust commenced leasing the premises and managing the institution under agreements entered into with the Palmerston North City Council. The principal place of business is 326-336 Main Street, Palmerston North.

The primary objective of the Trust is to provide interactive experience in art, science and history through acquiring, conserving, researching, developing, communicating and exhibiting material evidence of people and their environment, rather than making a commercial return. Accordingly, the Trust has designated itself as a public sector public benefit entity for the purposes of Public Benefit Entity Accounting Standards (PBE Standards).

BASIS OF PREPARATION

The prospective financial statements have been prepared on the going concern basis, and the accounting policies have been applied consistently throughout the periods.

Statement of Compliance

The prospective financial statements of the Trust have been prepared in accordance with the requirements of the Local Government Act 2002, which includes the requirement to comply with New Zealand Generally Accepted Accounting Practice (NZ GAAP).

The financial statements comply with Public Benefit Entity International Public Sector Accounting Standards ("PBE IPSAS") and other applicable Financial Reporting Standards, as appropriate for Tier 2 public sector public benefit entities, for which all reduced disclosure regime exemptions have been adopted.

The Trust qualifies as a Tier 2 Public Sector PBE reporting entity as it is not publicly accountable and as for the two most recent reporting periods it has had between \$2m and \$30m operating expenditure.

The reporting periods for these prospective financial statements are the years ending 30 June 2022, 30 June 2023 and respectively 30 June 2024. The prospective financial statements are presented in New Zealand dollars, unless otherwise stated.

Measurement Base

The measurement basis applied is historical cost, modified by the revaluation of collection assets as identified in this summary of significant accounting policies. The accrual basis of accounting has been used unless otherwise stated.

Standards, amendments, and interpretations issued that are not yet effective and have not been early adopted

There are no standards, amendments, and interpretations, issued but not yet effective that have not been early adopted, and which are relevant to the Trust.

Significant Accounting Policies

Revenue

Revenue is measured at fair value of consideration received or receivable.

Revenue may be derived from either exchange or non-exchange transactions.

Revenue from Non-exchange transactions

Revenue from non-exchange transactions arises from transactions that are not exchange transactions. In non-exchange transactions, the Trust either receives value from or gives value to another party without directly giving or receiving approximately equal value in exchange.

Approximately equal value is considered to reflect a fair or market value, which is normally commensurate with an arm's length commercial transaction between a willing buyer and willing seller. Many of the services that the Trust provides for a fee are charged at below market value as they are subsidised by Palmerston North City Council operational grant, sponsorship and government/non-government grants. Other services operate on a cost recovery or breakeven basis and are not considered to reflect a market return. Most of the Trust's revenue is therefore categorized as non-exchange.

This includes PNCC grants, transfers from government/non-government entities, donations, donated/vested and custodial collection items, sponsorship, in kind sponsorship, revenue from services supplied at subsidised price.

Specific accounting policies for major categories of revenue from non-exchange transactions are outlined below:

Grants

Grants received from PNCC are the primary source of funding to the Trust and are restricted for the purposes of the Trust meeting its objectives as specified in the Trust's trust deed.

Revenues from non-exchange transactions with Council/other government/non-government entities are measured at fair value and recognised when the event occurs and the asset recognition criteria are met, if the transfer is free from conditions and it is probable that the economic benefits or service potential related to the asset will flow to the Trust and can be measured reliably. To the extent that there is a related condition attached that would give rise to a liability to repay the amount if conditions of the grant are not met, deferred income is recognised instead of revenue, and recognised as revenue when conditions of the grant are satisfied.

Rendering of services

Revenue from the rendering of services is recognised when the transaction occurs to the extent that a liability is not also recognised. For these transactions the revenue is recognised by reference to the stage of completion of the transaction at the reporting date.

All revenues from rendering of services are non-exchange, except for revenue from Venue Hire which is classified as exchange transaction.

Vested or donated physical assets

Where a physical asset is gifted to or vested in the Trust for nil or nominal consideration, the fair value of the asset received is recognised as revenue. Such income is recognised when control over the asset is obtained, unless there is a use or return condition attached to the asset.

The fair value of vested or donated physical assets is determined by reference to the market value of comparable assets available.

'In Kind' Sponsorship

The Trust receives sponsorship 'in kind' by way of goods and services provided at discounted or nil charge. Where the fair value of these goods and services can be reliably measured, the income (and expense) is recognised as 'sponsorship - in kind' in the period in which the goods or services are received or there is a binding arrangement to receive the goods.

Volunteer Services

Volunteer services received are not recognised as revenue or expenditure as the Trust is unable to reliably measure the fair value of the services received.

Revenue from Exchange transactions

Sales of goods

Revenue from the sale of goods is recognized when the significant risks and rewards of ownership have been transferred to the buyer, usually on delivery of the goods and when the amount of revenue can be measured reliably and it is probable that the economic benefits or service potential associated with the transaction will flow to the Trust.

Interest Income

Interest income is recognised using the effective interest method.

Advertising Costs

Advertising costs are expensed when the related service has been rendered.

Borrowing Costs

Interest expense is recognised using the effective interest rate method. All borrowing costs are expensed in the period in which they are incurred.

Depreciation and amortisation

Depreciation of property, plant and equipment and amortisation of intangible assets are charged on a straight-line basis over the estimated useful life of the associated assets.

Leases

Finance Leases

A finance lease is a lease that transfers to the lessee substantially all the risks and rewards incidental to ownership of an asset, whether or not title is eventually transferred.

At the commencement of the lease term, finance leases are recognised as assets and liabilities in the statement of financial position at the lower of the fair value of the leased item or the present value of the minimum lease payments.

The finance charge is charged to the surplus or deficit over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability.

The amount recognised as an asset is depreciated over its useful life. If there is no certainty as to whether the Trust will obtain ownership at the end of the lease term, the asset is fully depreciated over the shorter of the lease term and its useful life.

Operating Leases

An operating lease is a lease that does not transfer substantially all the risks and rewards incidental to ownership of an asset. Lease payments under an operating lease are recognised as an expense on a straight-line basis over the lease term.

Lease incentives received are recognised in the surplus or deficit over the lease term as an integral part of the total lease expense.

Cash and cash equivalents

Cash and cash equivalents include cash on hand, deposits held at call with banks, other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts.

Bank overdrafts are presented within borrowings as a current liability in the statement of financial position.

Debtors and other receivables

Debtors and other receivables are initially measured at fair value and subsequently measured at amortised cost using the effective interest method, less any provision for impairment.

A provision for impairment of a receivable is established when there is objective evidence that the Trust will not be able to collect amounts due according to the original terms of the receivable. Significant financial difficulties of the debtor, probability that the debtor will enter into bankruptcy, receivership or liquidation, and default in payments are considered indicators that the receivable is impaired. The amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted using the original effective interest rate. The carrying amount of an impaired receivable is reduced through the use of an allowance account, and the amount of the loss is recognised in the surplus or deficit. When the receivable is uncollectible, it is written off against the allowance account for receivables. Overdue receivables that have been renegotiated are reclassified as current (that is, not past due).

Financial Assets

Financial assets are categorised into the following four categories: financial assets at fair value through surplus or deficit; held-to-maturity investments; loans and receivables; and financial assets at fair value through other comprehensive revenue and expense. The classification depends on the purpose for which each investment was acquired. Management determines the classification of its investments at initial recognition and re-evaluates this designation at every reporting date.

The fair value of financial instruments traded in active markets is based upon the quoted market prices at the balance sheet date. The quoted market price used is the current bid price.

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques.

The Trust uses a variety of methods and makes assumptions that are based on market conditions existing at each balance date. Quoted market prices or dealer quotes for similar instruments are used for long-term debt instruments held. Other techniques, such as estimated discounted cash flows are used to determine fair value for the remaining financial instruments.

a) Financial Assets at Fair Value through Surplus or Deficit

This category has two sub-categories: financial assets held for trading, and those designated at fair value through surplus or deficit at inception. A financial asset is classified in this category if acquired principally for the purpose of selling in the short term or if so designated by management. Derivatives are also categorised as held for trading. After initial recognition they are measured at their fair values. Gains or losses due to change in fair value are recognised in the surplus or deficit.

Currently, the Trust does not hold any financial assets in this category.

b) Loans and Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the balance date, which are included in non-current assets. After initial recognition, they are measured at amortised cost, using the effective interest method, less impairment. Gains and losses when the asset is impaired or derecognised are recognised in the surplus or deficit.

c) Held to Maturity Investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and fixed maturities and there is the positive intention and ability to hold to maturity. They are included in current assets, except for maturities greater than 12 months after balance date, which are included in non-current assets. After initial recognition they are measured at amortised cost, using the effective interest method, less impairment. Gains and losses when the asset is impaired or derecognised are recognised in the surplus or deficit.

Currently, the Trust does not hold any financial assets in this category.

d) Financial Assets at Fair Value through Other Comprehensive Revenue and Expense

Financial assets at fair value through other comprehensive revenue and expense are those that are designated into this category at initial recognition or are not classified in any of the other categories above. They are included in non-current assets unless management intends to dispose of, or realise, the investment within 12 months of balance date.

These investments are measured at their fair value, with gains and losses recognised in other comprehensive revenue and expense, except for impairment losses, which are recognised in the surplus or deficit. On derecognition, the cumulative gain or loss previously recognised in other comprehensive revenue and expense is reclassified from equity to the surplus or deficit.

Currently, the Trust does not hold any financial assets in this category.

Impairment of financial assets

Financial assets are assessed for evidence of impairment at each balance date. Impairment losses are recognised in the surplus or deficit.

Loans and receivables, and held-to-maturity investments

Impairment is established when there is evidence that the Trust will not be able to collect amounts due according to the original terms of the receivable. Significant financial difficulties of the debtor, probability that the debtor will enter into bankruptcy, receivership, or liquidation and default in payments are indicators that the asset is impaired. The amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted using the original effective interest rate.

For debtors and other receivables, the carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in the surplus or deficit. When the receivable is uncollectible, it is written-off against the allowance account. Overdue receivables that have been renegotiated are reclassified as current (that is, not past due). Impairment in term deposits are recognised directly against the instrument's carrying amount.

Financial assets at fair value through other comprehensive revenue and expense

For equity investments, a significant or prolonged decline in the fair value of the investment below its cost is considered objective evidence of impairment.

For debt investments, significant financial difficulties of the debtor, probability that the debtor will enter into bankruptcy, and default in payments are objective indicators that the asset is impaired.

If impairment evidence exists for investments at fair value through other comprehensive revenue and expense, the cumulative loss (measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in the surplus or deficit) recognised in other comprehensive revenue and expense is reclassified from equity to the surplus or deficit.

Equity instrument impairment losses recognised in the surplus or deficit are not reversed through the surplus or deficit.

If in a subsequent period the fair value of a debt instrument increases and the increase can be objectively related to an event occurring after the impairment loss was recognised, the impairment loss is reversed in the surplus or deficit.

Inventories

Inventories held for distribution or consumption in the provision of services that are not supplied on a commercial basis are measured at cost (using the FIFO method), adjusted, when applicable, for any loss of service potential.

Inventories acquired through non-exchange transactions are measured at fair value at the date of acquisition.

Inventories held for use in the provision of goods and services on a commercial basis are valued at the lower of cost (using the FIFO method) and net realisable value.

The amount of any write-down for the loss of service potential or from cost to net realisable value is recognised in the surplus or deficit in the period of the write-down.

Property, Plant and Equipment

Items of property, plant and equipment are stated at historical or deemed cost, less accumulated depreciation and impairment losses. Where parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

Additions

The cost of an item of property, plant and equipment is recognised as an asset only when it is probable that service potential associated with the item will flow to the Trust and the cost of the item can be measured reliably.

In most instances, an item of property, plant and equipment is initially recognised at its cost. Where an asset is acquired at no cost, or for a nominal cost, it is recognised at fair value when control over the asset is obtained.

Disposals

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount of the asset. Gains and losses on disposals are presented net in the surplus or deficit.

Work in Progress

All assets constructed by Trust are initially recorded as work in progress. Work in progress is recognised at cost less impairment and it is not depreciated. Upon completion, these assets are transferred to their relevant asset class and depreciation commences.

Subsequent costs

Costs incurred subsequent to initial acquisition are capitalised only when it is probable that service potential associated with the item will flow to the Trust and the cost of the item can be measured reliably.

The costs of day-to-day servicing of property, plant, and equipment are recognised as an expense as they are incurred.

(a) Furniture, Equipment and Exhibits

Furniture, equipment and exhibits (excluding art and heritage collections) are valued at cost less accumulated depreciation and impairment losses.

Depreciation

Assets are depreciated on a straight-line basis at rates that will write off their cost less any estimated residual value over the expected useful life of the asset. The useful lives of major classes of assets have been estimated as follows:

Computer Hardware	1 to 5 years
Exhibitions	2 to 10 years
Furniture & Fittings	4 to 10 years
Leasehold Improvements	4 to 10 years
Office Equipment	4 to 10 years
Plant	4 to 20 years

The residual value and useful life of an asset is reviewed, and adjusted if applicable, at each financial year end.

(b) Collection Assets

As the Heritage Collection and Art Collection assets are intended to have an indefinite life, they are held in trust in perpetuity for the benefit of the public.

The Heritage Collection and Art Collection have not been depreciated, as it is the Trust's policy to maintain the collections in their current state, in accordance with the Trust's Collection Policies.

All additions to the Heritage and Art Collection are recorded at cost. These additions will be revalued in accordance with the Trust's Valuation Policy. Donated objects are recorded at fair value, or depreciated replacement cost, or nil value if considered unrealisable or irreplaceable.

Custodial Collection Assets are objects within the Heritage and Art Collections not formally owned by the Trust, where the Trust has assumed all the rights and obligations of ownership. Within the Heritage Collection this is limited to items on loan for an indefinite period, excluding works on loan from other Museums and Cultural organisations. In relation to the Art Collection, the nature of artworks and anecdotal evidence suggests that there is a high likelihood of request for return of loaned assets, irrespective of the loan period, therefore only items on loan from the Te Manawa Art Society Inc. are recognised as custodial assets. These assets are held and maintained by the Trust by agreement with the owners.

Revaluation

The Art Collection assets are revalued to fair value as determined from market-based evidence by an independent valuer. The most recent valuation was performed by *Art + Object* Auckland during January 2018. Trust's policy is to revalue the Art Collection assets every three years.

The Heritage Collections assets are revalued to fair value as determined from market-based evidence by an independent valuer. Trust's policy is to revalue the Heritage Collection assets every four years to ensure that their carrying amount does not differ materially from fair value.

All other asset classes are carried at depreciated historical cost.

Accounting for Revaluations

The results of revaluing are credited or debited to an asset revaluation reserve. Where this results in a debit balance in the asset revaluation reserve, this balance is charged to the surplus or deficit. Any subsequent increase on revaluation that off-sets a previous decrease in value recognised in a previous year surplus or deficit, will be recognised first in the surplus or deficit up to the amount previously expensed, and then credited to the revaluation reserve.

Intangible Assets

Recognition and measurement

Intangible assets are initially measured at cost, except for Intangible assets acquired through non-exchange transactions (measured at fair value).

All of the Trust's intangible assets are subsequently measured in accordance with the cost model, being cost (or fair value for items acquired through non-exchange transactions) less accumulated amortisation and impairment, except for the items which are not amortised and instead tested for impairment such as Intangible assets with indefinite useful lives, or not yet available for use. The Trust has no intangible assets with indefinite useful lives.

Software acquisition and development

Acquired computer software licenses are capitalised on the basis of the costs incurred to acquire and bring to use the specific software.

Costs that are directly associated with the development of software for internal use are recognised as an intangible asset. Direct costs include the software development employee costs and an appropriate portion of relevant overheads.

Staff training costs are recognised in the surplus or deficit when incurred.

Costs associated with maintaining computer software are recognised as an expense when incurred.

Costs associated with development and maintenance of the Trust's website are recognised as an expense when incurred.

Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognised in surplus or deficit as incurred.

Amortisation

Amortisation is recognised in surplus or deficit on a straight-line basis over the estimated useful lives of each amortisable intangible asset. Amortisation begins when the asset is available for use and ceases at the date that the asset is disposed of.

The estimated useful lives are as follows:

Software: 1 to 7 years, Website: 3 to 5 years

Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

Impairment of property, plant and equipment and intangible assets

For the purpose of impairment of Property, plant and equipment and intangible assets, which are carried at cost less accumulated depreciation and impairment losses, the Trust classifies its items of property plant and equipment and intangibles as non-cash generating assets, as these are not held with the primary objective of generating a commercial return, but rather for service delivery purposes and to deliver to Trust's public benefit objectives. Property, plant, and equipment and intangible assets that have a finite useful life are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

Value in use for non-cash-generating assets

For Trust's non-cash generating assets, value in use is determined based on either a depreciated replacement cost approach, restoration cost approach, or a service units approach. The most appropriate approach used to measure value in use depends on the nature of the impairment and availability of information.

Value in use for cash-generating assets

Cash-generating assets are those assets that are held with the primary objective of generating a commercial return. The value in use for cash-generating assets is the present value of expected future cash flows. The Trust does not currently hold property plant and equipment and intangible assets in this category.

If an asset's carrying amount exceeds its recoverable amount, the asset is regarded as impaired and the carrying amount is written down to the recoverable amount. The total impairment loss is recognised in the surplus or deficit. The reversal of an impairment loss is recognised in the surplus or deficit.

Creditors and Other Payables

Creditors and other payables are initially measured at fair value and subsequently measured at amortised cost using the effective interest method.

Borrowings

Borrowings are initially recognised at their fair value plus transaction costs, if any. After initial recognition, all borrowings are measured at amortised cost using the effective interest method.

Borrowings are classified as current liabilities unless the Trust has an unconditional right to defer settlement of the liability for at least 12 months after balance date or if the borrowings are not expected to be settled within 12 months of balance date.

Employee Entitlements

Short-term employee entitlements

Employee benefits expected to be settled within 12 months after the end of the period in which the employee renders the related service are measured based on accrued entitlements at current rates of pay. These include salaries and wages accrued up to balance date and annual leave earned to, but not yet taken at balance date. Sick leave has not been included, as the amount of accumulated sick leave that is anticipated to be taken in future periods is not considered to be material.

Long-term employee entitlements

Employee benefits that are due to be settled beyond 12 months after the end of the period in which the employee renders the related service, such as long service leave have been calculated on an actuarial basis. The calculations are based on:

- likely future entitlements accruing to staff, based on years of service, years to entitlement, the likelihood that staff will reach the point of entitlement, and contractual entitlement information; and
- the present value of the estimated future cash flows.

Provisions

A provision is recognised for future expenditure of uncertain amount or timing when there is a present obligation (either legal or constructive) as a result of a past event, it is probable that expenditures will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to the passage of time is recognised in 'finance costs'.

Goods and Services Tax (GST)

All items in the financial statements are stated exclusive of Goods and Services Tax (GST), except for trade receivables and payables, which are stated on a GST inclusive basis. Where GST is not recoverable as input tax then it is recognised as part of the related asset or expense. The net amount of GST recoverable from, or payable to, the Inland Revenue Department (IRD) is included as part of receivables or payables in the statement of financial position.

The net GST paid to, or received from the IRD, including the GST relating to investing and financing activities, is classified as an operating cash flow in the statement of cash flows.

Commitments and contingencies are disclosed exclusive of GST.

Income Tax

The Trust is exempt from Income Tax by virtue of its charitable status.

Equity

Equity is measured as the difference between total assets and total liabilities. Equity is disaggregated and classified into the following components.

- Trust's contributed capital;
- Retained earnings;
- Restricted reserves;
- Collections revaluation reserve;

Restricted reserves

Restricted reserves are a component of equity generally representing a particular use to which various parts of equity have been assigned. Reserves may be legally restricted or created by the Trust.

Restricted reserves include those which have specific conditions accepted as binding by the Trust and which may not be revised by the Trust without reference to the Courts or a third party (i.e. endowment funds). Transfers from these reserves may be made only for certain specified purposes or when certain specified conditions are met.

Also included in restricted reserves are reserves restricted by Trust's decision. The Trust may alter them without reference to any third party or the Courts. Transfers to and from these reserves are at the discretion of the Trust.

Critical Accounting Estimates and Assumptions

In preparing these prospective financial statements, the Trust has made estimates and assumptions concerning the future. These estimates and assumptions may differ from subsequent actual results. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations or future events that are believed to be reasonable under the circumstances. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below:

Property, Plant and Equipment Useful Lives and Residual Values

The Trust reviews the useful lives and residual values of its property, plant and equipment annually. Assessing the appropriateness of useful life and residual value estimates of property, plant and equipment requires the Trust to consider a number of factors including the physical condition of the asset, expected period of use of the asset by the Trust, and expected disposal proceeds from the future sale of the asset.

An incorrect estimate of the useful life or residual value will impact on the depreciable amount of an asset, therefore impacting on the depreciation expense recognised in the surplus or deficit and the carrying amount of the asset in the statement of financial position. The Trust minimises the risk of this estimation uncertainty by:

- physical inspection of assets;
- asset replacement programmes;
- review of second-hand market prices for similar assets; and
- analysis of prior asset sales.

The Trust has not made significant changes to past assumptions concerning useful lives and residual values.

Public benefit entity prospective financial statements (PBE FRS 42)

The Trust has complied with PBE FRS 42 in the preparation of these prospective financial statements. In accordance with PBE FRS 42, the following information is provided:

(i) Description of the nature of the entity's current operation and its principal activities

The Trust is a Council Controlled Organisation, as defined in the Local Government Act 2002. The Trust's principal activities are outlined within this Statement of Intent.

(ii) Purpose for which the prospective financial statements are prepared

It is a requirement of the Local Government Act 2002 to present prospective financial statements that cover 3 years and include them within the Statement of Intent. The purpose of the Statement of Intent is to state publicly the activities and intentions of Te Manawa for the year and the objectives to which these activities will contribute. Prospective financial statements are revised annually to reflect updated assumptions and costs.

(iii) Bases for assumptions, risks and uncertainties

The financial information has been prepared on the basis of best estimate assumptions as the future events which the Trust expects to take place. The Trust has considered factors that may lead to a material difference between information in the prospective financial statements and actual results. These factors, and the assumptions made in relation to the sources of uncertainty and potential effect, are outlined within this Statement of Intent.

(iv) Cautionary Note

The financial information is prospective. Actual results are likely to vary from the information presented, and the variations may be material.

(iv) Other Disclosures

These prospective financial statements have been authorised by the Board , on 2 June 2021, for delivery to the Palmerston North City Council. The Trust is responsible for the prospective financial statements presented, including the assumptions underlying prospective financial statements and all other disclosures. The Statement of Intent is prospective and as such contains no actual operating results.
